Career Objective

Computer Science undergraduate with foundations in UI/UX design, problem-solving, and web development, along with basic knowledge of C and Java. Seeking internship opportunities to apply technical and design skills to real-world projects.

Technical Skills

Programming Languages: C, Java

Web Technologies: HTML, CSS, JavaScript, React, Node.js

Database: MySQL

UI/UX Tools: Figma, Adobe XD, Sketch

Core CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks

Other Skills: Prompt Engineering, Reverse Prompting

Projects

New and Improved UI/UX in KL ERP System

- Redesigned the existing ERP interface to improve usability and create a cleaner, more user-friendly experience for students and staff.
- Designed improved layouts and navigation using Figma, HTML, CSS, JavaScript, and React.
- Focused on accessibility, visual consistency, and smoother interaction across major ERP workflows.

Mood-Based Music Recommender

- Developed a music recommendation system that suggests songs based on the user's mood and emotional preferences.
- Implemented the application using HTML, CSS, Java, and Spotify API.
- Provided personalized music recommendations to improve music discovery and listening experience.

Education

Bachelor of Engineering in Computer Science

Koneru Lakshmaiah University, Bachupally, Hyderabad

2024 – 2028

CGPA: 8.5/10

Intermediate Education

Sri Chaitanya Junior College, Board of Intermediate Education

2022 – 2024

87%
